

## **CONTINUING EDUCATION MISSION STATEMENT AND GOALS**

The National League for Nursing believes that life long learning is a requirement for all nurses. The Continuing Education program within the Research and Professional Development Business Unit serves as a provider of continuing education for nursing educators, including those in academic faculty roles and those in staff development positions. The National League for Nursing provides continuing education programs that build on basic nursing education and provide for ongoing development of the nursing workforce.

### **GOALS**

- Offer a diversified portfolio of continuing education programs for nursing educators.
- Serve as the primary continuing education provider for faculty development programs that are offered to faculty in schools of nursing.
- Be the standard bearer for continuing education for the workforce.
- Serve as the approved provider for all continuing education programs for the NLN's Constituent Leagues.
- Assure that continuing education programs are of high quality and designed to prepare the nursing workforce for competency in an ever-changing health care environment.
- Encourage all nurses to participate in lifelong learning.
- Maintain the standards of excellence that allow the NLN to meet the criteria for recognition as an Approved Provider by the International Association for Education and Training. (IACET)
