Dear Member Colleagues,

We’re so glad you’re here with the NLN to explore nursing and nursing education “Beyond Boundaries.”

As so many of us have come together as a community of learners at Summit 2016, it is the perfect time to pause and recognize you and your fellow volunteer leaders of this membership association. It is your contributions that allow the NLN to serve as the voice for nursing education.

Our cherished and indispensable profession provides us with opportunities for collaboration, lifelong learning, innovation, scholarship, mentoring, and service. NLN members exemplify these essential activities as we give our time and talent to the nursing education community each year.

In the following pages are the names of many of the individuals who belong to a long line of volunteers who have helped to make the League the vital organization it is today. And please join us in acknowledging, as well, the unnamed grand cast of nurse educators who work diligently in our local organizations to serve faculty at home.

Thank you. You are the reason we can move “Beyond Boundaries” to make nursing education a model of global connectivity.

THE UNIVERSITY OF A SMARTER WAY TO EARN A DEGREE.

How did WGU come to partner with notable organizations including Cedars-Sinai, Kaiser Permanente, and HCA?

By pioneering competency-based education, allowing our students to demonstrate what they already know and focus on what they need to learn, and ensuring they have career-relevant skills when they graduate.

Chamberlain College of Nursing’s commitment to student success begins with a commitment to faculty excellence and development.

Care for faculty is part of our culture – we call it Chamberlain Care® – and it provides our faculty the support they need to advance nursing and nursing education. Work flexibility, generous educational benefits, support for scholarly activities and a series of faculty development programs, including a structured transition plan for new faculty, are examples of our commitment to our faculty as they master the art and science of teaching.

Commitment to faculty is the cornerstone of our philosophy of education as we educate, empower and embolden diverse healthcare professionals who advance the health of people, families, communities and nations.

Join us as we shape the next generation of nurses. Together we can make a difference.

WHAT if faculty received the same care they give their students?
When Simulation Tools are Easy to Use, Teaching Becomes More Effective

Whether you are adding a new manikin to your training program or interested in upgrading your operating system, Laerdal can help you deliver simulation-based education easily and efficiently. Our latest innovation, SimPad® PLUS System, works with a wide range of Laerdal manikins, simulators, and task trainers as well as standardized patients. SimPad PLUS will give you the freedom to focus on the simulation, rather than the technology, allowing you to better prepare students to provide quality patient care.

• Intuitive touchscreen interface provides an easy ‘pick up and play’ experience
• Scenarios and Themes help reduce instructor workload
• Mobile design allows you to train anywhere
• Optimal data capture for quality debriefing
