The National League for Nursing

NLN MEMBERSHIP PROVIDES ALL YOUR PROFESSIONAL DEVELOPMENT NEEDS

Opportunities for professional growth and life-long learning include the annual Education Summit, the Immersion Experience, workshops, conferences, year-long focused learning opportunities, audio/web-seminars, and online learning modules.

The peer-reviewed research journal Nursing Education Perspectives provides cutting edge articles with a focus on nursing education research and innovation in the nursing classroom, as well as opportunities for publication. NLN books, monographs, living documents, and the Reflection & Dialogue series keep you current on issues affecting nursing education and serve our mission to advance excellence.

Timely communications, both print and electronic, are your portal to important events and activities at the NLN, in the world of nursing education, nursing, and health care.

Leadership opportunities are possible through involvement in a variety of NLN activities.

- Committees and task groups explore and address significant issues in nursing education and provide important feedback to the NLN Board of Governors.
- The NLN’s state affiliated constituent leagues support the mission of the League at the local level. Visit www.nln.org/stateleagues for your state/regional information.
- NLN ambassadors keep members and other constituents up-to-date on NLN programs and activities and keep the NLN informed about facility issues and concerns.

Grants support individuals engaged in scholarly activities that advance the science of nursing education.

NLN MEMBERSHIP HELPS YOU HELP YOUR STUDENTS SUCCEED

NLN Testing Services provides solutions for both RN and PN programs to ensure the highest level of student achievement on exams, as well as predictability of student success from pre-admission through graduation. The resources and strategies we offer include case studies and toolkits designed by our members to enhance student learning.

Through the online Simulation Innovation Resource Center (SIRC), nurse educators can learn how to use simulation to promote and evaluate student learning and integrate it into the curriculum.

NLN MEMBERSHIP PROVIDES THE RECOGNITION YOU DESERVE AND NEED

The Academy of Nursing Education fosters excellence in nursing education by recognizing and capitalizing on the wisdom of outstanding individuals.

The Centers of Excellence program recognizes schools with a sustained demonstration of excellence in faculty development, nursing education research, or student learning and professional development. The specialized knowledge, skills, and abilities of nurse faculty are recognized and rewarded through the Academic Certified Nurse Educator (CNE) program. Certification raises the visibility and status of academic nursing education as an advanced professional practice discipline with a defined practice setting.

Membership Continues to Pay for Itself with...

- Special rates for our professional development activities
