

Instructor's Toolkit for "Finish the Story" Assignment: Julia Morales and Lucy Grey

Learners have now seen Lucy at three snapshots in time. The last assignment calls for the student to finish the story and relate where they see Lucy about three months after their last encounter with her. This assignment should give faculty insight into what students have learned from the unfolding case.

The assignment may take on any of the forms below:

- short paper
- reflective journal entry
- class discussion
- small group discussion
- online discussion
- student presentation using role playing

Whatever format you choose, encourage learners to indicate the reasoning behind their end of story, based on what they know about Lucy. They should take into account her history and risk factors and the benefits they considered. Students should cite morbidity and mortality data to support their outcomes. They should relate their beliefs about the role of the nurse in Lucy's continued care and any community resources or referrals that might be needed.
