Simulation Innovation Resource Center

Building Simulation Proficiency

For Novice to Advanced Nurse Educators

Reimagining Simulation Education

A scaffolded approach for nurse educators to achieve the professional development needed to curate the skills that enhance the learning experience.

Foundation Courses

Designed as a virtual, asynchronous experience to build a foundation of simulation education best practices.

Deeper Dive Courses

Designed as a virtual, synchronous immersion with expert simulation educators to advance skills in curriculum integration, evaluation, facilitation, and debriefing.

“As nursing education continues to evolve, we continue to meet the challenges learners face in developing critical thinking skills and translating them into action, within the context of patient care through simulation-based education.”
